

# Get the Full Zebra Experience

Increase Your Competitive Edge with RFID,  
Machine Vision and Fixed Industrial Scanning

Make an important decision by arranging your visit to Zebra's RFID and machine vision experience center and lab in Germantown, MD. We'll partner with you to deliver a world-class experience.

Whether it's an annual visit or a first-time meeting, this opportunity offers the chance for you to strategize with our product development team and subject matter experts. This is your time to experience everything Zebra has to offer for advanced asset tracking and visibility.

Zebra's Germantown, MD experience center compliments Zebra's other facilities, offering a location for deep-dive conversations on RFID, machine vision and fixed industrial scanning. Imagine the possibilities for improved efficiency and reduced complexity, while managing increased volume demands.

## Zebra RFID. More Transformation. No Complication.

Leverage Zebra's decades of expertise, design thinking and software development to achieve max RFID efficiency, while minimizing the pains of multi-vendor solutions. Zebra gives you the industry's broadest, field-proven RFID portfolio for unmatched accuracy and interoperability. Connect it all and create a platform that elevates every system, device, tag and worker.

## Machine Vision and Fixed Industrial Scanning

Shoppers can purchase at any time from any place, creating tremendous fulfillment pressures that ripple throughout the supply chain. Zebra's industrial machine vision and fixed scanning solutions address it all with flawless automation that empowers you to easily set up, deploy and run the processes that drive your business.

## MotionWorks®

Zebra MotionWorks is a near real-time location solution, optimized for handling large volumes of assets at the rapid pace that today's warehouse demands. It allows you to see exactly where critical assets are whether they're stationary or in motion, enabling you to automate transactions, streamline workflows, reduce labor and improve accuracy.
