

## API Update

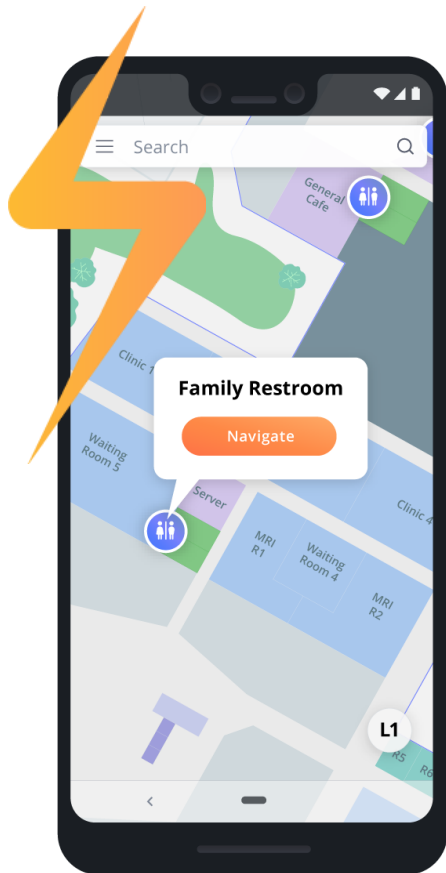

### GeoJSON Map Import

The Jibestream platform has been expanded to support additional map ingestion formats. Now you can import your maps in:

- GeoJSON
- SVG
- PNG
- JPG

Save time and remove friction from the map import process!

## Android Enhancements

### Performance Improvements

Jibestream's Android SDK has been optimized to more efficiently handle map redraws and improve overall performance, resulting in:

- Faster map load times for users
- Up to 93% decrease in battery drain
- Reduced CPU usage

Deliver a superior user experience with Jibestream.

### Interactive Bitmaps

Trigger actions with standard gesture recognition for all bitmaps. Supported touch events include:

- Tap
- Double tap
- Long press
